The Situation

For more than fifty years we have watched the slow and steady "transformation" of all areas of our public life. Today, hostility to biblical faith is sweeping over our land with the ferocity of a wild fire. Encouraged by secularism, today's narrative claims that biblical adherence is a disguise for bigotry and hatred. What is the logic or the spirit of the age behind this transformation?

The Ignite Conference will focus on understanding the 'spirit of our age' that has brought about this transformation affecting both civil society and the Church. Without an understanding of this spirit, it is impossible to formulate an effective response.

Broadening Our Understanding

Friday Sessions - will explore the underpinning of Critical Theory and its many offshoots - social justice, sexual identity, and racism. With that foundation laid, we will examine the critical inroads that the ideology of expressive individualism or the autonomous self, in its theological form, has made on the Church.

Saturday Morning Sessions - will turn from culture to the legal war taking place in the courts and legislatures. Ideologies have been politicized under the banner of identity politics and now challenge our form of civil government and the freedoms we have enjoyed under it, including our First Amendment freedoms of religion, speech/ thought and association.

Saturday Afternoon Sessions - will be devoted to practical steps believers can take to safeguard our churches from challenges to come, i.e. review churches' governing documents, use of facilities policies and membership requirements. Tips to prepare believers to also make challenges on behalf of religious freedom will be shared.

Join the Army

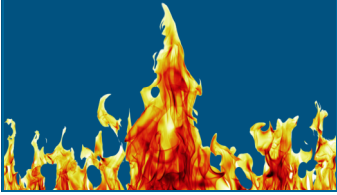

Become informed, inspired and equipped . Help reignite the church and society's belief in our country's founding principles - We seek to reaffirm our identity in Christ so as to stand united for Biblical Truth - no matter what the cost

Note Ignite Conference in Memo section

Mail to: Saint Paul's Anglican Church

111 Waring Street, Summerville, S.C. 29483

The Proposed Equality Act Will Impact:

Churches - broadens the terms public sphere/public accommodations to include places of worship and treats Biblical Truths as "opinion." Eliminates the Religious Freedom Registration Act.

Businesses - criminalizes a business owner's decision to withhold service based on religious beliefs.

Medical Professionals - provides and pays for therapies, against moral and medical objections, for gender dysphoria and transition therapies.

Families - supports the State's ability to override parental decisions regarding a child's treatment for gender dysphoria and allows ideological education in schools

Women - dismantles protections for sex-specific facilities and activities for women
